SHAPESHIFTER

C1

W1

Offering awesome power, incredible speed and total flexibility, SHAPESHIFTER is the newest game-changing light from High End Systems. Designed by Richard Belliveau, prepare to have your mind shifted!

126 high-powered LED's with custom lensing provide an incredible beam of light, making this the industry's brightest LED fixture. Two versions—SHAPESHIFTER C1 (RGB) and SHAPESHIFTER W1 (White) are available, with the C1 outputting 24,000 RGB lumens¹ and the W1 an incredible 27,000 lumens.²

7 independently controlled modules housed in one moving fixture create a multitude of highly defined beams coming together to form an amazing array of effects from the incredibly bold to the ultra subtle. All elements of the fixture are lightning fast, giving the designer the largest palette of creative options available, all in one fixture.

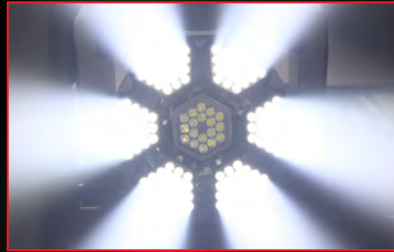

Alongside total control, High End Systems has provided Module Macros with almost 150 available to the user. These have been custom written to provide the user with a fast and intuitive way to create powerful effects in a very short time. These Macros are further enhanced by speed and cross fade controls

High End Systems are true innovators and SHAPESHIFTER is the fulcrum of the new generation of LED products being released.

RESHAPE THE GAME!

Features:

- 126 Cree XPE II LED's
- C1= 42 Red, 42 Green, 42 Blue. W1= 126 White
- 50,000 hours LED Life
- Custom integrated lensing for high contrast defined beams
- 10 degree beam angle
- Ultra fast Pan and Tilt movement
- 7 discrete LED Modules with individual control
- 6 moving modules offering 36 degrees of X and Y movement at high speeds
- Onboard dynamic macros
- Unique Indigo Backlighter LED
- Color LCD menu with battery operation
- Low ambient noise
- RDM compatible
- Touring roadcase

Operation

- Auto-switching power supply
- 100v-240v
- DMX/RDM Connector: 5-pin and 3-pin XLR

Construction

- Modular construction
- Fast service design for all components
- Electronic cooling system control
- Pan and tilt locks for easy transportation
- Easy carried with yoke-arm handles

Dimensions

- in: 15.3 x 12.6 x 20.5
- mm: 388 x 320 x 520
- 59.3 lbs
- 26.9 kg

* Patents Pending. Specifications subject to change without notice. One year product warranty and technical support
